1980-81 Student Data

U.S. Schools of Public Health

Appendix II -- 1980-81 Student Statistical Form

1980 - 1981
STUDENT STATISTICAL FORM
ADMINISTRATION

1. Return the completed forms to the Data Center no later than Dec. 15, 1980.

2. Date of data: Fall Term 1980

3. Definition of a Student

A person registered in a School of Public Health in a course for credit or completion of a thesis, doctoral dissertation or field work experience for which tuition and/or fees are assessed.

4. Definition of Full-time (Question 15a)

Each school is to arrive at its own definition of full-time. Criteria to be used include whether or not the student is carrying the minimum number of credit hours to be classified by the School as full-time or part-time, which may be based on the amount of tuition paid.

5. Part-time Students (Question 15b)

Give the percent of time students are enrolled part-time. In determining part-time use either credit hours, amount of tuition paid, or a combination of both as criteria to arrive at a percentage of time enrolled.

6. Procedures for Completing Source of Financial Support (Question 16)

For students who are the beneficiaries of support from traineeships, fellowships, scholarships or grants, record this information in the appropriate box when necessary.

7. Other

Each school should develop its own system for keeping track of the forms. All forms sent to the Data Center should be numbered and counted. Each School should compile a roster of these numbers with the names of the corresponding students. All names are to be removed from the forms before they are sent to the Data Center. All forms should be sent certified mail, return receipt requested. The total count of forms returned should be sent to the Data Center along with a total count of the student body.

The last two questions on the back of the form are to be completed by the the registrar's office or other school official before the student's name is removed. Please be as accurate as possible in completing these items.

8. Changes in the Form

a. The question which asked when the student plans to graduate has been added. It is now number 9.

b. The form has been rearranged. The item requesting information on dependents and type of support provided by employees has been deleted.

c. The item on Area of Specialization has been revised.

d. Please see instruction for applicant form for Specific Descriptions of Areas of Specialization.

NAME OF STUDENT: _____

ITEM NUMBER	ITEM TITLE	COLUMN(S)	COMMENTS
2	Date of Birth	9-10	Birthdates greater than or equal to 1963 should be coded unknown.
3	Citizenship	11-15	If column 11 is answered "yes" (1), code columns 14-15 as "not applicable" (77). Columns 12-13 will be either the code for the state specified or "not answered" (99) if the space for the state was left blank. If column 11 was not answered, but an answer was written for columns 12-13 or 14-15, edit by completing column 11 appropriately. Code multiple answers as unknown. (If both "yes" and "no" are checked, code columns 11-15 as unknown. If "yes" is checked, but two states are written, code column 11 "yes" and columns 12-13 unknown. If both a state and country are written, edit columns 11-15 to unknown.)
4	Race	16	Code multiple answers as unknown (9).
5	Prior Degrees	17-27	If column 17, "none," has been answered, code columns 18-27 "not applicable" (7). Do not edit anything that has not been checked, even if the respondent has higher degrees. Only foreign degrees specified in "other" are to be coded 2 (see Appendix A for a list of some of these foreign degrees). Others may exist that are not listed in the Appendix. Code them 2, foreign degree. Edit the "specifies" back wherever possible, i.e., J.D., L.L.D., D.V.M., D.M.D., O.D., Ph.D., etc., may edit back to "doctorate, other than M.D. . . .". M.S.W., M.A., M.S., M.A.T., etc., may code back to "masters from a non-School of Public Health." As per instructions to the Schools, students with degrees in nursing were expected to "double answer" this question, i.e., a student with a B.S. in nursing would check column 18 for bachelors and column 19 for degree in nursing.
6	Year of Last Degree	28-29	If a response was given column 17, "none," code columns 28-29 as "not applicable" (88). Code any responses greater than or equal to 1981 as unknown (99).
7	Degree Program	30-31	Code columns 30-31 as 01-22. Do not make a special code for "other" responses. Code multiple answers as unknown (99). Code joint masters as "other masters" (13). Code joint doctorate as "other doctorate" (18). Any degrees written in should be coded back to "other masters" or "other doctorate." If they cannot be coded back, code as "other" (22).
8	Date of Enrollment	32-35	Code as given. Any responses which are unreasonable (year greater than 1980 or month greater than 12), code as unknown (99).
9	Expects to Graduate	36-39	Code as given. Any responses which are unreasonable (year prior to 1980 or month greater than 12), code as unknown (99).
10	Areas of Specialization (Interest Areas)	40-41	Code as marked. Multiple answers are coded "more than one answer" (08). Edit "other" specified into the pre-codes whenever possible. Those that cannot be "edited" back will be coded "other" (07). If there are no boxes checked mark unknown and code it "09".
11	Source(s) of Financial Assistance	42-49	Code as given. Force column 42 to agree with item 16.
12	Prior Professional Category	50-53	Edit back to subcategories any responses specified in "other" that can be edited back. Any response which is edited back will receive the major category code and subcategory of the edited answer. If a specified answer cannot be edited back into a specific category already listed but does fit into a general category, code columns 50-51 with the general category and code columns 52-53 as "other" (67). If two subcategories within the same general category, leave the general category code as is; code columns 52-53 as unknown (99). If two subcategories in different general categories are checked, code columns 50-53 as unknown (99). If a respondent checked two subcategories, one of which is "other, specify," ignore "other, specify" and code the other category that was checked.

ITEM NUMBER	ITEM TITLE	COLUMN(S)	COMMENTS
13 A,B,C	Post Bachelor Education and Work Experience	54-56	If column 17, "no prior degree," is answered, code columns 54-56 as "not applicable" (7) regardless of the responses given in items 14A, 14B, 14C. If column 27 is answered and the response specified is less than a bachelors (see Appendix A for example), code columns 54-56 as "not applicable" (7) regardless of the responses given in item 13. It is to be assumed that if only degree in nursing is checked, items 13A, 13B, 13C may be correctly answered and coded as shown by the respondent. If item 5 "prior degrees" is entirely blank, code items 13A, 13B, 13C as shown by number of years or unknown, if left blank. If any of "prior degrees" (columns 17-27) are answered and this (these) response(s) is a Bachelors or higher, code columns 54-56 as given according to the codes or, if left blank, code as unknown (9).
14	Type of Health Agency	57	If column 55 is blank, code item 14 (column 57) as "not applicable" (0). Item 14 will be coded as answered only when column 55 has been checked. If two or more responses have been checked, code as unknown (9).
15a	Full-time/Part-time Status	58	Code as given. If left blank, code as unknown (9).
15b	Percent of Full-time Load	59-60	Code percents as given, rounding to nearest whole percent. Question 15a will be edited to agree with 15b as necessary. If column 59-60 are answered with any percent less than 100%, column 58 will be edited to part-time (2). If columns 59-60 are answered 100%, edit column 58 to full-time (1) and code columns 59-60 as "not applicable" (77). If columns 59-60 are blank, then the answer to item 15a will determine the coding of columns 59-60 as follows: if column 58 is "1" (full-time), code columns 59-60 as "not applicable" (77); if column 58 is "2" (part-time), code columns 59-60 as unknown (99); if column 58 is "9" (no answer), code columns 59-60 as unknown (99).
16	Source of Grants and Awards	61-73	If any of columns 61-73 are checked, edit column 42 (if necessary) as 1 = answered. In this case, boxes checked in columns 61-73 will be coded 1 = answered and blank boxes coded 9 = no answer or unknown. If none of columns 61-73 are checked but column 42 has been checked, then column 42 will be edited to 9 = no and columns 61-73 will be 7 = not applicable. If none of columns 61-73 are checked and column 42 is also left blank, then column 42 is interpreted as "no" (9) and columns 61-73 will be coded "not applicable" (7).
